

CURRICULUM VITAE

Name: Tangguh Laksana

Gender: Male

DOB: 02-06-2003

Address: Banten, Indonesia

Role: Software Engineer

Mail: tangguhlaksana0@gmail.com

Phone: +62 85283152547

ABOUT

As a passionate and results-driven Software Engineer with over four years of hands-on experience, I specialize in full-stack development, AI, and machine learning. My expertise spans building scalable backend systems with .NET Core, developing AI-powered solutions for real-world applications, and creating intuitive web and mobile interfaces. With a strong foundation in diverse technologies from Laravel and ASP.NET to Power BI and Android Studio I thrive in dynamic environments where innovation meets impact.

I excel at leading teams, optimizing systems, and delivering robust solutions that bridge technology with business needs. My experience developing enterprise-grade applications and AI-powered systems demonstrates my ability to create technical solutions that drive operational efficiency and deliver tangible value. Holding a bachelor's degree in Software Engineering, I combine solid theoretical knowledge with practical expertise to solve complex challenges and contribute to digital transformation initiatives.

EXPERIENCE

Dotnet Developer

07/2025 – Present

Nawa Data Solution

Contract - Jakarta, Indonesia

In my role as a Backend .NET Developer and handle product for banking company, I am responsible for developing and maintaining backend systems using ASP.NET and SQL Server to support the company's operations. Currently, I work on the OneFCC product, which includes features such as Anti-Money Laundering (AML) functionalities. My focus is on ensuring system scalability and performance, enabling seamless integration of various functionalities within the organization's infrastructure.

Backend Dotnet Developer

09/2024 – 06/2025

Blue Bird Group

Contract - Jakarta, Indonesia

In my role as a Backend .NET Developer at Blue Bird Group, I am responsible for developing and maintaining backend systems using .NET Core to support the company's operations. Currently, I work as an outsourced resource, leveraging microservices architecture and gRPC for efficient communication between services. This approach enhances system scalability and performance, allowing for seamless integration of various functionalities within the organization's infrastructure.

Software Engineer

06/2024 – 08/2024

FPT Software

Internship - Hanoi, Vietnam

Involves data analysis using Power BI and web development with Node.js, Express.js, and EJS. I am responsible for creating data visualizations and reports to support decision-making, as well as developing and maintaining web applications. This includes designing user interfaces, implementing backend functionality, and ensuring the overall performance and security of the applications.

AI Engineer

02/2024 – 06/2024

HUMIC (Human Centric) Engineering Research Center

Internship - Bandung, Indonesia

I am building an AI system designed specifically for a patient monitoring application. The AI will receive data from devices that track patient movements and locations. These devices will send their data through an MQTT broker, ensuring efficient and real-time data transmission.

Lead Programmer

07/2023 – 10/2023

Angkasa Pura | Airports

Contract - Jakarta, Indonesia

Recruited as an Outsourcing as a Lead Programmer for the Audit Management System External Audits and Audit Management System New (integrates both internal and external audits), I manage a team of programmers working on the project. My responsibilities include overseeing the technical development, ensuring adherence to industry standards, and guiding the team in implementing key features.

Software Developer

06/2021 – 06/2024

PT Darul Global Solution

Full-time Remote – Jakarta, Indonesia

During my tenure at PT Darul Global Solution, I worked on numerous projects using a variety of technologies, including Laravel, CodeIgniter, and ASP.NET. I developed applications for diverse purposes such as meeting management, equipment maintenance, ERP systems, logistics and transaction management, and electronic document management. These projects often involved working with older versions of frameworks and adapting to specific production environments, demonstrating my ability to maintain and enhance legacy systems.

Additionally, I have experience with mobile and desktop applications, as well as API development. My work included creating mobile solutions for logistics and mining activities, developing POS systems, and building service libraries for payment methods. I also contributed to projects involving government systems and company profiles, showcasing my versatility across different domains and platforms.

Throughout these projects, I utilized a range of technologies and frameworks, including Laravel, CodeIgniter, ASP.NET, .NET Core, .NET MAUI, and Windows Forms App. My programming language expertise spans PHP (various versions), ASP.NET, C#, and Java. For database management, I worked extensively with PostgreSQL, MySQL, and SQLServer, ensuring robust and efficient data handling across all applications.

Mobile Programmer

10/2021 - 02/2022

Mobile Innovation Laboratory

Internship – Bandung, Indonesia

Developed mobile applications using Android Studio with native Java. Responsibilities included implementing features, writing efficient code, and conducting testing and debugging to ensure smooth performance.

EDUCATION

Software Engineering Bachelor’s Degree, Telkom University – GPA 3.54

2021 - 2025

Software Engineering – Vocational High School, SMKN 1 Pandeglang

2018 - 2021

CERTIFICATES

Peserta Pemrograman – GemastikXV 2022	11/2022
Python (Basic) - HackerRank	11/2022
Qualifier Round of Global Programming Competition, SnackDown 2021	10/2021
Problem Solving (Basic) - HackerRank	05/2021
Java (Basic) - HackerRank	01/2021
Public Complaint Reporting Application	03/2021 - 03/2024

SKILLS

PHP	Advanced	Android Studio	Intermediate
Java	Intermediate	C++	Intermediate
Laravel	Advanced	C#	Intermediate
CodeIgniter	Advanced	.Net Core	Intermediate
Spring Boot	Beginner	JavaScript	Intermediate
Power BI	Beginner	EJS	Intermediate
Express JS	Intermediate	Golang	Beginner
AI	Beginner	Python	Beginner
